## **CTAM Practice Exercise Red Teaming Analytic Method Job Aid**

In homeland security, red teaming involves thinking or acting like a terrorist in an effort, for example, to identify security weaknesses and potential targets. Red teaming can be used in either analytical exercises or field-level exercises.

### ***Steps to Effective Red Teaming***

- Gather a team of experts with in-depth cultural knowledge
- Present a situation or stimulus for experts to simulate an adversary response
- Develop a list of “first person” questions
- Capture the most likely outcome

### ***Red Teaming and Intel Traffic***

- Choose one of your sets of hypotheses – perhaps the one you are most sure (or least sure) represents a national level threat.
- Conduct a Red Team Analysis by selecting the door to your office on the interface, and selecting the Red Team door. Your team will be in the new office.
- Choose from the preprogrammed questions for the Red Team
